

## PATIENT TESTIMONIAL

I have worked in an office environment for over 35 years and as a result of sitting at a desk that was not suitably adjusted for my height I now suffer severe lower back problems.

I decided to seek professional treatment and was referred to Dr Terry Chen. I have experienced noticeable relief from the very first treatment. My posture has greatly improved, I have better breathing capacity and am not feeling as tired and lacking of energy since commencing treatment.

Terry is very thorough in his evaluation of the treatment that is required on an individual bases. At all times Terry has conducted his services in a highly professional manner.

I have no hesitation in recommending Terry for any chiropractic treatment .
