

PATIENT TESTIMONIAL

Dear patient,

We hope to educate and tell others about the effectiveness of chiropractic care on our patients. Please take a few minutes and let others hear about how chiropractic care has benefited your health &/or your family. Here are a few sample questions to help you.

- Describe your overall health prior to chiropractic care?
- How has chiropractic care changed your life?
- What would you say to a friend or family member who was curious about chiropractic care?
- What has pleased you the most in your course of treatment at our practice?

I've been a patient of Terry for quite a few months now + I can't believe how well I feel.

Terry's adjustments have corrected my posture, helped relieve symptoms of heartburn + headaches I have pain free days + an overall feeling of wellbeing I like the fact that scans are taken regularly + my progress is discussed. Terry is honest with his dealings with patients which I appreciate. I admire how dedicated Terry is in regards to professional development in his free time. Thank you Terry for all you have done for me.
