

PATIENT TESTIMONIAL

Dear patient,

We hope to educate and tell others about the effectiveness of chiropractic care on our patients. Please take a few minutes and let others hear about how chiropractic care has benefited your health &/or your family. Here are a few sample questions to help you.

- Describe your overall health prior to chiropractic care?
- How has chiropractic care changed your life?
- What would you say to a friend or family member who was curious about chiropractic care?
- What has pleased you the most in your course of treatment at our practice?

When I first came to Terry about my lower
Back injury

I was suffering from dull pain and tightness,
id also had issues with my neck due to
Motorcycle racing.

I hit the gym 6 days a week lifting weights and this
was slowing me down, after seeing Terry and having much
needed adjustments ive found better range of movement,
improved strenght, my posture is far better and im no
longer suffering from discomfort. My health and well
being is the BEST its ever been.

Cheers Terry

Thanks again Sam
